01 ABOUT

Blending logic with creativity to build modern web experiences.

I'm a full-stack developer with a Computer Science foundation. I enjoy turning complex ideas into smooth, user-friendly interfaces while keeping the backend solid and efficient. From designing clean UI to structuring scalable systems, I aim to create solutions that not only work, but feel right to use.

03 EXPERIENCE 01 / 10

OVANYA COMPANY FOR AI AND DATA SCIENCE
Senior Supervisor · Xawan Government Project
AUG 2026 – PRESENT · ERBIL & DUHOK PROVINCES

Oversaw store operations and team performance. Implemented system improvements including inventory and expiration tracking, enhancing efficiency and operational consistency.

10 / 10
2021 – 2022
Erbil, Iraq

BLAN BAZAR
Supervisor & Systems Coordinator

Supervised daily operations and staff while managing food-related services. Designed and implemented an inventory expiration tracking system, improving stock control and reducing waste.

06 STRENGTHS

01
Critical Thinking
Logical decision-making under pressure.

02
Problem Solving
Complex issues into practical solutions.

03
Project Planning
Workflows from idea to deployment.

04
Communication
Clear and effective with teams and clients.

05
Teamwork
Collaborative, adaptable, goal-oriented.

Let's build something that feels right to use.
